Does what it promises

18 V cordless vacuum lifter VLP 18 Grabo

NEW

- The ergonomically-designed, portable electric vacuum lifter lifts and moves almost any object and puts it effortlessly into place. This vacuum lifter is ideal for various materials such as tiles, drywall panels, concrete blocks, glass, metals, furniture and large electrical appliances.
- Its powerful functionality ensures that heavy objects are handled both efficiently and reliably.
- The vacuum lifter has a holding force of up to 170 kg and sucks on almost any surface, even dusty, rough or semi-porous materials.
- Work safety has the highest priority. The vacuum lifter has an automatic suction function and the digital display continuously provides information about the current negative pressure
- With a powerful vacuum pump, stops automatically at maximum vacuum
- The electronic management system (EMS) protects the tool, extends its service life and increases efficiency

TECHNICAL DATA VLP 18 GRABO

Rated air flow	20 l/min
Max. vacuum	0.8 bar
Max. load-bearing capacity	130 kg
Max. holding force	170 kg
Working temperature	0 °C ~ 60 °C
Dimensions L x W x H	300 x 184 x 121 mm
Battery voltage	18.0 V
Battery capacity	2.5 / 5.0 / 8.0 Ah
Weight without battery pack	1.48 kg

Order No. 531330

- 1x VLP 18 Grabo
- 1x protective bag

Promotion No. 05
3.900⁰⁰

Also available as a kit in L-BOXX® (Order No. 531492) and as a complete kit including batteries and charger in L-BOXX® (Order No. 531332).

The VLP 18 GRABO has a digital display that shows the maximum liftable weight in pounds or kg.

The VLP 18 Grabo has four metal anchor points for external attachment and additional lifting options.

18 V cordless metal shears SHE 16 18-EC

- Brushless motor
- Speed preselection in 4 steps, CDC constant electronics, soft start, overload protection, restart lock, temperature monitoring
- Anti-kickback, switches off the motor if the tool gets jammed
- Maximum curve mobility and convenient cutting of tight radii from 15 mm
- Burr-free cutting of metal sheets and blade spacing flexibly adjustable to different sheet thicknesses
- Extremely streamlined handle section with soft-grip inlays
- Maximum work safety thanks to large hand guard
- 4 HSS reversible blades: The blades are reversible and can be used 4 times

TECHNICAL DATA SHE 16 18-EC

Stroke rate at no-load	950 - 2050 rpm
Max. metal sheet thickness, steel 400 N/mm ²	1.6 millimetres
Max. metal sheet thickness, steel 600 N/mm ²	1.2 mm
Max. metal sheet thickness, steel/stainless steel 800 N/mm ²	1.0 mm
Max. metal sheet thickness, aluminium 250 N/mm ²	2.0 mm
Smallest radius	16 mm
Min. starting hole diameter	27 mm
Diameter of smallest cuttable hole	50 mm
Working speed	5-9 m/min
Battery voltage	18.0V
Battery capacity	2.5 / 5.0 / 8.0 Ah
Weight without battery pack	1.5 kg

18 V cordless nibbler KNE 16 18-EC

- Brushless motor
- Speed preselection in 4 steps, CDC constant electronics, soft start, overload protection, restart lock, temperature monitoring
- Anti-kickback switches off the motor if the tool gets jammed
- Good curve mobility for notches and internal cut-outs from radii of 40 mm or more
- Quick, tool-free adjustment of the cutting direction up to 360° in 45° increments
- Extremely streamlined handle section with soft-grip inlays
- Cutting with no distortion and sparks

TECHNICAL DATA KNE 16 18-EC

Stroke rate at no-load	1950 - 4250 rpm
Max. metal sheet thickness, steel 400 N/mm ²	1.6 mm
Max. metal sheet thickness, steel 600 N/mm ²	1.0 mm
Max. metal sheet thickness, steel/stainless steel 800 N/mm ²	0.7 mm
Max. metal sheet thickness, aluminium 250 N/mm ²	2.0 mm
Smallest radius	24 mm
Min. starting hole diameter	22 mm
Diameter of smallest cuttable hole	48 mm
Distance for template cutting	1.5 mm
Working speed	2.2m/min
Battery voltage	18.0V
Battery capacity	2.5 / 5.0 / 8.0 Ah
Weight without battery pack	1.5 kg

Compact orbital sander with speed control OSE 2-70x198-EC

- E-signal switch for simple, safe operation with quick-stop function prevents the backing pad from coasting
- Grinding speed suitable for the material thanks to electronic speed adjustment
- Ideal for sanding filled surfaces on car parts during repair work. For surface sanding the substrate and avoiding unevenness before applying the filler and using a random orbit sander
- Electronics: Speed preselection in 4 steps, tachometer-controlled constant speed, soft start, restart protection
- Velcro backing pad with bevelled pad geometry and multi-hole system for optimum suction, suitable for all commercially available pads
- Lightweight, compact single-hand orbital sander, very ergonomic and low-vibration thanks to special balancing for fatigue-free work that's easy on the joints
- Effective dust extraction thanks to integrated self-extraction for dust-free working with filter cartridge
- Option to connect an external dust extractor with Ø 27 mm, anti-static suction hose SH 27x3.5m AS (445.045)

NEW

With extra-large backing pad!

Order No. 530632

- 1x OSE 2-70x198-EC
- 1x Velcro backing pad SP 70x198-M

Promotion No. 08

Cordless edge milling cutter and router CER 18-EC

- An edge milling cutter and router combined. Toolless conversion from the edge cutter to the router
- The collet can be used for milling cutters with a shank diameter of up to 8 mm
- With scale zero function, milling depth adjustment via turret stop and infinitely variable milling depth fine adjustment via rotating ring
- The milling table with rubber-coated handles and clamping function enables safe guidance. The Plexiglas base plate always gives the user a clear view of the milling cutter for perfect results
- For a wide range of applications in woodworking, renovation, drywall construction and mould making. Milling of corner joints, joints, curves/contours with templates, re-milling of laminate profiles. Milling solid wood edges, recesses and grooves with templates and guide rings, making templates for production, etc.
- Electronic quick-acting brake
- Connector for external dust extraction Ø 36 mm or step adapter

NEW

Variable speed adjustment (6 settings).

Quick and easy cutter change thanks to integrated spindle lock.

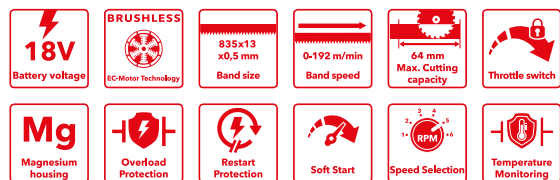

An edge milling cutter and router combined. Toolless conversion from the edge cutter to the router.

Integrated LED lamp for optimum illumination of the work area.

Cordless band saw SBE 64 18-EC

- A perfectly balanced band saw thanks to its design, supported by optimum weight distribution of the battery and motor.
- The SBE is particularly suitable for spark-free cutting of metal in environments where there is a risk of fire
- Brushless motor with greater efficiency and a longer service life
- Adjustable belt speed for perfect cuts in a variety of materials
- Toolless saw blade changing
- Integrated LED lamp for optimum illumination of the work area.
- Ergonomically designed, non-slip rubber-coated handle
- With metal bracket for flexible attachment
- The electronic management system (EMS) protects the tool, extends its service life and increases efficiency

Tool-free saw blade change, with an additional saw blade cover providing increased safety during use.

Adjustable blade speed for perfect cuts in a variety of materials.

With XLITHIUM POWER PLUS

18 V battery pack with 8.0 Ah. Additional performance and longer run times for more performance.

THERMA-TECH™
**X LITHIUM
POWER PLUS**

+ Power

The higher energy density of 8.0 Ah battery allows up to 75% more power for selected products.*

+ Run time

The modern cell technology delivers a run time up to 60% longer.*

* compared with AP 18.0/5.0 Ah

** - Cordless compact circular saw with pendulum hood CS 62 18.0-EC
- 2-speed cordless hammer drill driver with Turbo mode PD 2G 18.0-EC HD
- Cordless mitre saw SMS 190 18.0-EC

+ Service life

Therma-Tech™ technology absorbs the heat generated, ensuring longer battery run times and life cycles. Keep Control manages the strong power output while protecting the battery pack.

Li-ion battery packs

Integrated charge and discharge protection
Protected against dust and splash water
Integrated charge indicator. Shows at a glance the charge of the battery cells.

The patented Proformance battery system delivers what it promises!

Long run time, long service life, long maximum performance. Only from FLEX With the patented cooling system, FLEX delivers optimum protection of the tool and the battery cells. The battery management system controls the permanent data exchange between the tool, battery and charger so that all parameters are optimally set. This ensures power when the battery and tool are working together, and allows use without energy loss.

Keep Control

The smart technology controls and monitors the tool activity and the charging process, and provides information on the charging status via the LCD display.

Therma-Tech™

The unique, integrated cooling system ensures constant temperatures even under heavy loads.

Power battery

Powerful Li-Ion cells provide 18 V power.

Lithium-ion

No self-discharge. No memory effect.

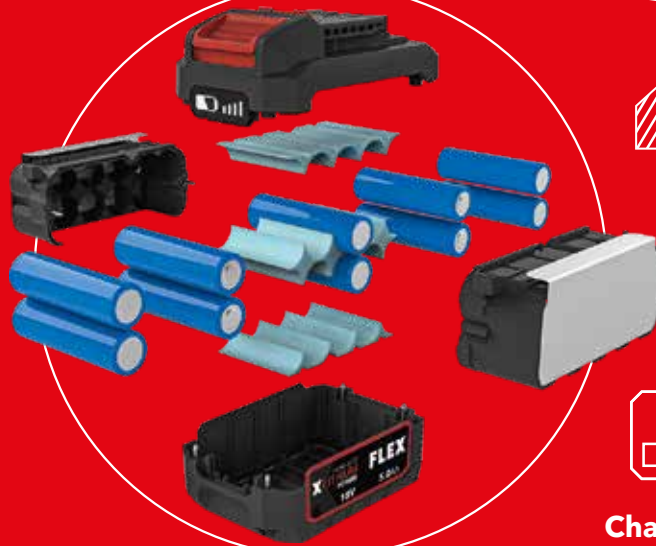

EC motor

Low-wear and brushless motor with EC technology for greater running performance, more power and more life

Cordless tool

Example combination of TK-L 136, TK-L 238 and TK-L 374

You need them on every construction site.

18 V cordless angle grinder L 125 18.0-EC LD/5.0 kit

- Brushless motor with greater efficiency and a longer service life
- Extremely streamlined handle section with soft-grip inlays
- Microprocessor control with soft start, restart protection after power failure, overload protection
- Electronic Management System (EMS)
- Anti-kickback, switches off the motor if the wheel gets jammed
- Perfect dust protection thanks to removable protective metal grille
- Ergonomic arm working posture thanks to side handle mounted at an angle
- Disc guard adjustable without tools

Also available as a boxed solo machine (Order No. 530497)

Order No. 530496

- 1x L 125 18.0-EC LD
- 1x charger CA 18.0
- 2x battery packs Li-Ion AP 18.0/5.0 Ah
- 1x disc guard for grinding, Ø 125 mm
- 1x clamping flange
- 1x clamping nut
- 1x face spanner
- 1x side handle M10
- 1x carrying case

Rotary hammer drill CHE 5-40 SDS-max

- 1150 Watt hammer drill and chisel hammer in D-build with high impact energy and low vibrations
- Function switch with three functions: Hammer drilling, chiselling, chisel adjustment
- Rotation stop for chiselling
- Ideally suited for hammer drilling, diameter 40 mm in masonry and concrete for composite, injection anchor fixings and through holes.
- For chiselling work to remove plaster and tiles
- Variable speed, continuously adjustable from 1-6 with "Power Control" LED display
- Safety slip clutch: protects in the event of a jammed drill bit
- Decoupled, ergonomic handle with rubberised grip surface. Vibrations are reduced by a sprung damper and additional vibration damping between the housing and handle

Order No. 532026

- 1x CHE 5-40 SDS-max
- 1x handle
- 1x tube of grease
- 1x carrying case

Vibrations are reduced by a sprung damper and additional vibration damping between the housing and handle.

Function switch with three functions: Hammer drilling, chiselling, chisel adjustment.

Maximum dust protection on the construction site

VAC 800-EC air cleaner for construction sites

Watch the video!

Very efficient

Significantly reduces the pollutant load in rooms up to 100 sq. m within a short time.

Very handy

No installation required. Set up, switch on – clean air. The filter is changed without the need for tools.

Low incidental costs

When used properly, the HEPA 14 filter can be used for up to one year. The VAC 800-EC air cleaner is specially designed for continuous operation and impresses with its very low power consumption.

Whisper mode

In special Night mode, the sound pressure level is only 38 dB (A). This means that the operating noise falls below the concentration disturbance threshold and is therefore also ideally suited to places such as classrooms.

Light weight

Weighing just 7.2 kg, the VAC 800-EC is the quietest in its class, and this makes it easy to move.

Robust construction

Specially designed for extreme conditions on construction sites. The VAC 800-EC is particularly robust, and boasts an impressive long service life.

EC Whisper Turbine ("Made in Germany")

- Long run time
- Long service life
- Low service costs
- Low noise

Tool-free "Top-Change" filter change
Thanks to simple operation of the quick-action clamping lever. Prevents unnecessary contact with spent filter cartridges.

VAC 800-EC

Order No. 532859

- 1x VAC 800-EC
- 1x HEPA filter H14
- 1x pre-filter mat G3
- 1x coarse filter G4
- 1x hose SH 125x5m C

Promotion No. 65
8.990⁰⁰

Work with negative pressure in the working area

A sluice should be installed to prevent dust from migrating into the environment outside the work area. The cleaned air is discharged from the working area via a hose or is fed back into the working area as cleaned air.

The mobile FLEX Air Cleaner can be put to use immediately and without the need to assemble anything

- Power consumption 170 watts
- Rated power consumption 1.7 - 1.45 A
- No-load speed 0-3930 /min
- Dust extraction connection Ø 125 mm
- Sound pressure level 1 m, 58 dB(A)
- Max. flow rate 544 m³/h
- Filter surface area H13 > 7.26 m²
- Fuse 10 VA
- Dimensions (L x W x H) 373 x 400 x 508 mm
- Cable length 3.5 m
- Weight 7.2 kg

1150-watt wet stone polisher LE 12-3 100 WET, PRCD with variable speed and PRCD switch, 115 mm

- Powerful 1150 watt motor
- Microprocessor electronics: with tachometer-generator constant speed control, soft start, overload protection and speed preselection
- GFCI operator protection circuit breaker integrated into the cable
- High torque for maximum removal performance and the best surface quality
- The water supply and control is located under the housing, making it easy to operate and ensure precise dosing. A free grip area is created directly above the polishing pad
- 2 m special hose: requires no additional hose securing.
- Quick-action brass coupling: for 1/2 water hose
- Spindle lock

Order No. 378461

- 1x LE 12-3 100 WET, PRCD
- 1x GB-S L/LE12-3
- 1x cable holder (hook & loop tape)

Promotion No. 66

Bushhammer for stairs LST 1503 VR

- Microprocessor electronics: with speed preselection and consistent speed control, soft start, overload protection.
- Working width adjustable: 3 stages from approx. 40 mm up to approx. 92 mm
- Stop: steplessly adjustable for precise working along the edge of the stone
- Dust extraction: for use even in occupied buildings
- The machine's 60 aggressive carbide tips take care of the job quickly precisely
- The rotating tool head is mounted in rubber, reducing noise and vibrations and increasing the drive's service life
- Grip hood directly above the tool allows the machine to be precisely guided

Order No. 259229

- 1x LST 1503 VR
- 1x stop, complete
- 1x Allen key, WAF 5
- 1x SAD D32 WS/WSK
- 1x SHV-C 32x0.5m

Promotion No. 67

The alternative to the small cutting bench Diamond cutting wheel for stone CS 60 WET

- High-performance motor: extra-powerful, for cutting stone and milling joints
- Stepless cutting depth adjustment from 0-60 mm, with guide rail up to 54 mm. In a 0-44 mm mitre cut, with guide rail up to 38 mm
- Stepless angle adjustment for mitre cuts from 0-45°
- Cutting marking of 0°/30°/45° on the guide table for quick orientation
- High-quality disc guard and die-cast magnesium guide plate
- Rubber motor guard prevents splash water from being directly sucked in
- Water supply: for effective cooling of the diamond tool
- Quick-action brass coupling: for 1/2" water hose
- GFCI operator protection circuit breaker integrated into the cable

Order No. 531029

- 1x diamond cutting wheel for stone CS 60 WET
- 1x key for tool changing
- 1x parallel stop
- 1x L-BOXX® 238

Flexible adapter for rail system
- Tool-free assembly
- Cuts of 0°-50° on the FLEX rail
- Can be used for other rail systems

INCLUDING
GRS 160 guide rail

You'll find the right industrial vacuum cleaner on Pages 26/27.

Compact renovation grinder for sanding up to edges LDE 16-8 125 R, Turbo-Jet II kit

- Electronics with speed stabilisation, soft start, overload protection and temperature monitoring
- Reliable 1600 watt high-power motor
- Steplessly adjustable no-load speed 4500-7800/min
- Anti-kickback, switches off the motor if the wheel gets jammed
- Disc guard with pivoting segment for sanding up to the wall
- Steplessly-adjustable, vibration-dampened ergonomic handle
- FLEX clip hose connection for Ø 32 mm snap coupling included in the basic package
- Recessed spindle lock to prevent accidental actuation
- Ideally suited to working on walls, ceilings and floors. Efficient and economical thanks due to optimum machine and sanding disc matching

Order No. 513474

- 1x LDE 16-8 125 R
- 1x diamond backing pad Turbo-Jet II
- 1x dust extraction guard with brush ring
- 1x bail handle
- 3x cable holders
- 1x Allen key, WAF 4
- 1x face spanner
- 1x L-BOXX® 238 carrying case

Also available as LD 16-8 125 R, Turbo-Jet II kit with constant speed, (Order No. 504939)

Powerful 2400 watt renovation grinder for surfaces, 180 mm LD 24-6 180, Turbo-Jet kit

- Elastic rubber suction ring with low-wear metal ring
- Dust extraction protects against abrasive dust
- Soft start for a safe start
- Restart protection after a power failure
- Dust extraction guard with continuous height adjustment
- Extraction nozzle 32 mm external Ø
- Very well suited to material removal from large areas
- Sanding plates of heights 22 mm to 28 mm are suitable.
- With steplessly adjustable, vibration-dampened ergonomic handle

Order No. 513482

- 1x LD 24-6 180
- 1x Turbo-Jet diamond grinding disc, Ø 180 mm
- 1x dust extraction guard with rubber suction ring
- 1x suction adapter
- 1x clamping nut M 14
- 1x clamping flange WAF 17
- 1x Allen key, WAF 6

RETECFLEX the universal tool for renovation, refurbishment and modernising RE 16-5 115, pointed scouring head kit

- Universal tool system that can be adapted for many refurbishment and modernisation applications. Compact, handy and perfectly suited to machining smaller areas and the edges of large areas
- Speed preselection, speed stabilisation by means of tachogenerator, soft start, restart interlock after power failure, overload protection and temperature monitoring
- Anti-kickback
- Special gearbox: special gear reduction provides high torque in the medium and lower speed range
- With steplessly adjustable, vibration-dampened ergonomic handle
- FLEX clip system. No adapter and reducing sleeves required
- Dust extraction guard: with stepless height adjustment
- Spindle lock

Order No. 513504

- 1x RE 16-5 115
- 1x pointed scouring head
- 1 dust extraction guard for sanding
- Ø 115 mm brush ring
- 1x base for scouring Ø 80 mm
- 1x backing pad Ø 115/M14 hook and loop, bowl
- 1 corundum Ø 115 sanding paper kit
- 1x bail handle
- 1x ring spanner, WAF 13
- 1x Allen key, WAF 4
- 3x fastening screws, M 8
- 1x L-BOXX® 238 carrying case

Safety information! FLEX laser measuring instruments comply with all international safety standards. They comply with laser class 2 or 2M according to DIN EN 60825-1: 2001-11 (wavelength 635-670 nm, output power < 1mW) and do not harm the eyes or skin when used as directed. Nevertheless one should never look directly into the laser beam when using laser measuring devices.

Laser rangefinder ADM 100 G up to max. 100 m

- Green laser for fast and precise measurements
- Length, surface, volume and indirect measurements
- Permanent angle measurement
- Up to 99 values can be stored with the memory function
- Continuous measurement mode
- Unit/sound button: Silent or with tone and setting of the required measuring unit
- Illuminated four-line display
- Housing protected against dust and splash water
- 1/4" connecting thread for tripods
- Operation possible with AAA 1.5 V batteries or a rechargeable battery

Cordless TRINOXFLEX kits

18 V cordless belt file FBE 30 18-EC

- Brushless motor, greater efficiency, longer service life
- Unique tool attachment with quick-release coupling for changing the four system attachments without using tools
- Head can be swivelled through 140°. Sanding arms can be used with 9 mm or 30 mm
- Sanding arm adjustable for belt lengths of 520 mm and 533 mm
- Sanding arm working length up to approx. 12 cm
- Change sanding belt: quickly and without tools

Order No. 532117

- 1x sanding attachment, belt file BF 140
- 2x sanding belts ZIRCOFLEX P60
- 2x sanding belts ZIRCOFLEX P120

Promotion No. 96
5.990⁰⁰

18 V cordless pipe belt sander BRE 50 18-EC

- Brushless motor, greater efficiency, longer service life
- Unique tool attachment with quick-release coupling for changing the four system attachments without using tools
- High-quality sanding arm with spring suspension: made of light alloy with 2 deflection rollers. For optimum wrap-around of pipes up to max. 270°
- Change sanding belt: quickly and without tools

Order No. 532118

- 1x sanding attachment, pipe belt BR 50
- 2x sanding belts ZIRCOFLEX P60
- 2x sanding belts ZIRCOFLEX P120

Promotion No. 97
6.990⁰⁰

18 V cordless fillet weld sander LKE 152 18-EC

- Brushless motor, greater efficiency, longer service life
- Unique tool attachment with quick-release coupling for changing the four system attachments without using tools
- For precision work on surfaces, sanding work in particularly tight angles, corners and hard-to-reach places
- Microprocessor control: Speed preselection, speed stabilisation by means of tachogenerator, soft start, restart interlock after power failure, overload protection and temperature monitoring

Order No. 532120

- 1x sanding attachment for fillet weld BS 152

Promotion No. 98
7.990⁰⁰

18 V cordless burnisher BSE 50 18-EC

- Brushless motor, greater efficiency, longer service life
- Unique tool attachment with quick-release coupling for changing the four system attachments without using tools
- Adjustable burnishing attachment, allows working close up to the edge, also suitable for narrow rollers, incl. parallel stop. Tool-free grinding tool change via patented quick-change system
- For optimum finishing of various materials, for burnishing, texturing, polishing, brushing, smoothing, de-rusting and deburring steel and stainless steel surfaces

Order No. 532119

- 1x sanding attachment for burnishing BS 50

Promotion No. 99
4.990⁰⁰

You'll find the right batteries and chargers on pages 10/11.

Further information about metalworking with the TRINOXFLEX system can be found on our website!

1400 watt metal-cutting circular saw CSM 4060

- Exact sawing of metal without cooling fluid
- Chip collection container with viewing window:
 - Large dimensions
 - Can be emptied without using tools
- Guide plate adjustable without using tools, infinitely variable sawing depth adjustment up to 63 mm
- Special carbide-tipped saw blades: nearly burr-free cuts, trimming threaded bars possible without recutting the thread.
- Switch with safety catch and lock
- Maximum cutting depths:
 - Solid material / flat steel: 6 millimetres
 - Round material: 20 mm
 - Hollow sections: 63 mm

Order No. 506044

- 1x CSM 4060
- 2x carbide saw blades for steel
- 1x parallel stop
- 1x combination wrench
- 1x protective goggles
- 1x carrying case
